Frameless Glass Doors are an incredible addition to a new home or a renovation. Creating seamless transitions between the inside and the outdoors, both when completely open or totally closed.

California System

Stacking folding frameless door

Enclose your balcony, outdoor kitchen, pool house and patio with the California stacking sliding glass doors. Unlike other systems, our fully retractable glass doors simply slide and stack away. Installed to open up homes to the garden with seamless flow and bring in maximum natural light.

Stax Frameless has revolutionised the standard sliding glass door by designing sliding door systems for the modern home. A sheer sliding glass wall with frameless glass panels so your view is never compromised.

California System

Stacking folding frameless door

For the most part, nobody really opens their Bi-folds or sliders completely unless entertaining. In reality these doors usually remain closed for 99% of the time, and during this time the

With the Frameless Glass Doors, this is not the case, as the flow between indoor and the outdoors is there even when fully closed. Then add to the fact that when entertaining you can open the area up like no slider or Bi-fold can, maximising your open space and do this with a flush track, so no ugly steps or tracks to trip over.
