Frameless Showers

Classic, Ohio, Cleveland

Custom made for you

Actual product may vary from image

Frameless shower doors are the perfect solution to give your bathroom a spacious, elegant and brighter look. Frameless showers offer several advantages over framed showers — they require less installation time and materials, no need for refinishing or paint once installed, and they're easier to repair and maintain.

Different hanger options allow you to customise the feel of your sliding shower

When space is at a premium and a traditional swing door results in compromise, try one of our sliding frameless doors. With the door sliding in line with the fixed panel, there is no intrusion into the bathroom space.

Utilising a sliding door with compensation channels you can be assured of a perfect fit every time. Where time lines don't allow for measure after tiling is complete, a sliding shower will allow enough flexibility to pre-order materials prior to final measurement.

Often frameless showers require overhead bars and supports in conjunction with hinges and seals. De-clutter the shower design by using the supports as part of the design mechanism.

The clean simple and elegant design of our sliding frameless shower doors never fails to impress.

Utilising a sliding door with compensation channels you can be assured of a perfect fit every time.
