The doors are gently decelerated as well as being reliably held in both their closed and opened states by specially developed catch-type buffers.

With clamp-type fittings, the need to drill and cut the glass is eliminated. Fast, simple fitting, saving time and

Frameless glass sliding doors offer the best solution for a low maintenance solution that will not age and will retain its classic appearance for years to come.

Our frameless interior doors are the perfect solution for both designers and builders. With their sleek, contemporary appearance, they can be used in any type of home or building. We provide architects with a wide range of different design options — and since the doors don't need any visible hardware or frame, you won't have to sacrifice on aesthetics.
